Blocks spacing

Configuration · https://publishpress.com/knowledge-base/blocks-spacing/

This feature is on the Settings screen in PublishPress Blocks. If you enable this feature, it will add vertical spacing between your blocks on the frontend of your site.

The image on the left shows two PublishPress Image blocks with the **Blocks spacing** feature disabled. The image on the right shows the same two images with the **Blocks spacing** feature enabled and set to **50 px**.
