Capabilities for PublishPress Capabilities

Capabilities · https://publishpress.com/knowledge-base/capabilities-for-capabilities/

PublishPress Capabilities has individual capabilities to control access to all the main screens. These will be available immediately when you install the Capabilities plugin.

These capabilities control access to the following areas:

- manage_capabilities_dashboard: Controls access to the "Dashboard" screen.
- manage_capabilities_roles: Controls access to the "Roles" screen.
- manage_capabilities: Controls access to the "Capabilities" screen.
- manage_capabilities_editor_features: Controls access to the "Editor Features" screen.
- manage_capabilities_admin_features: Controls access to the "Admin Features" screen.
- manage_capabilities_admin_menus: Controls access to the "Admin Menus" screen.
- manage_capabilities_profile_features: Controls access to the "Profile Features" screen.
- manage_capabilities_nav_menus: Controls access to the "Nav Menus" screen.
- manage_capabilities_user_testing: Controls access to the "User Testing" feature.
- manage_capabilities_backup: Controls access to the "Backup" screen.
- manage_capabilities_settings: Controls access to the "Settings" screen.
