Create or Promote a User with PublishPress Cart

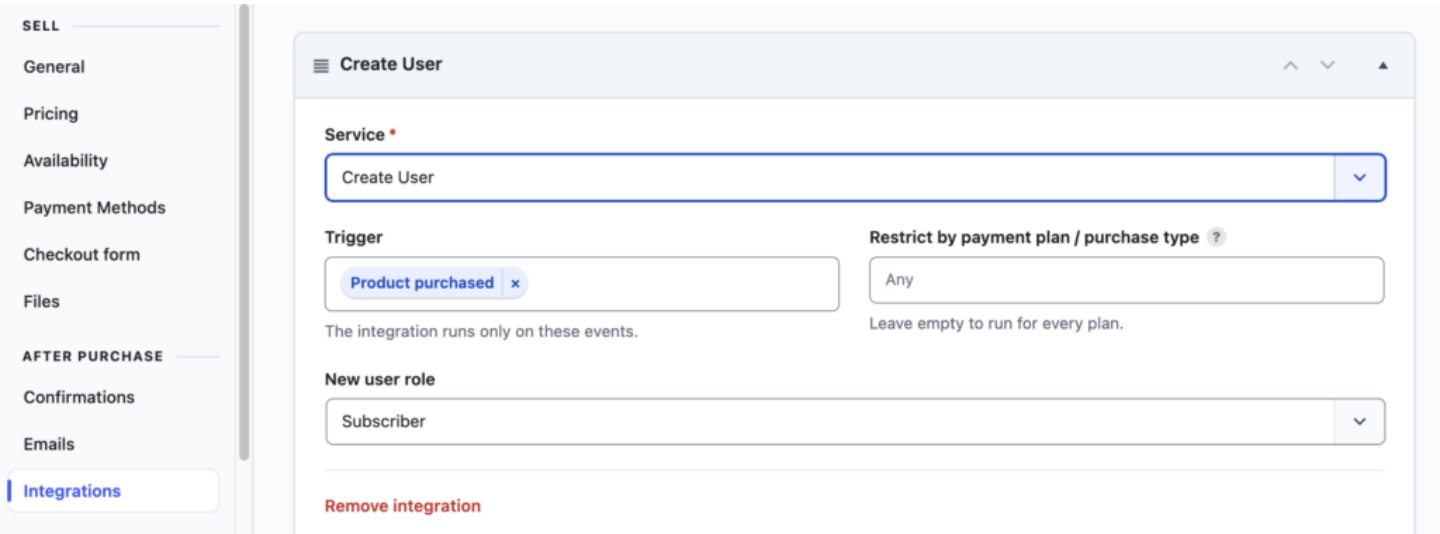
Integrations · https://publishpress.com/knowledge-base/create-user/

The "Create User" and "Promote User" integrations allows you to automatically grant new users access to the membership area on your site. This is a built-in integration, you can set this up directly from the Integrations tab in the Product Settings.

How to Create a User After a Product Purchase

Go to the **Integrations** tab in your **Product Settings** and select **Create User** from the Services menu. Then select the level of access you want to give your customer from the **New User Role** dropdown.

In the example below the following will occur from the settings chosen. When a product is purchased with any payment plan a new user is added as a subscriber to the website.



Here's a video guide to this feature:
