1.44.3

= Other =

- Updated Freemius SDK to version 2.4.5

1.44.2

= Bug Fixes =

- Toggle Post Filter: Slider not opening when width set to "auto".
- Tag Meta Box: Fixed staged loading of tags.

1.44.1

= Other =

- Improved performance by different caching of tag counts.
- Tag Meta Box: If you have many groups, the post edit screen now loads tags staged with a short delay so that your server doesn't receive all requests at once. This can be deactivated in the Tag Meta Box settings if your server has no performance issues.
- Tag Meta Box: You see now the percentage of tags loaded.

1.44.0

= Features =

- Tag Cloud Search: You can now filter tags additionally by words that appear in their descriptions (parameter `search_title`).
- Tag Cloud Search: If you use the Tag Cloud Search with on of the plugin's tabbed (groups or first letters) or accordion tag clouds, we now automaticallly open the tab or panel of the first matching tag.

= Bug Fixes =

- Fixing parameter "header_class" of Alphabetical Tag Index.
- Fixing logic when saving post tags.
- Improved compatibility with Twenty-Two theme.

= Other =

- Toggle Post Filter: On small screens, slider width won't exceed screen width.
- Toggle Post Filter: Improved display of overlay message on small screens.
