Simple Tag Cloud – Overview

Simple Tag Cloud (Pro) · https://publishpress.com/knowledge-base/combined-tag-cloud/

The Simple Tag Cloud feature allows you to display taxonomy terms in a traditional "Tag Cloud" layout, but with many creative and stylish options. You can use either shortcodes or Gutenberg blocks for this feature.

Here's a screenshot of the Simple Tag Cloud feature from our demo site. This example uses a green color scheme. We also added the # sign before the tags and the number of associated posts after the tags.
