Count Up Block

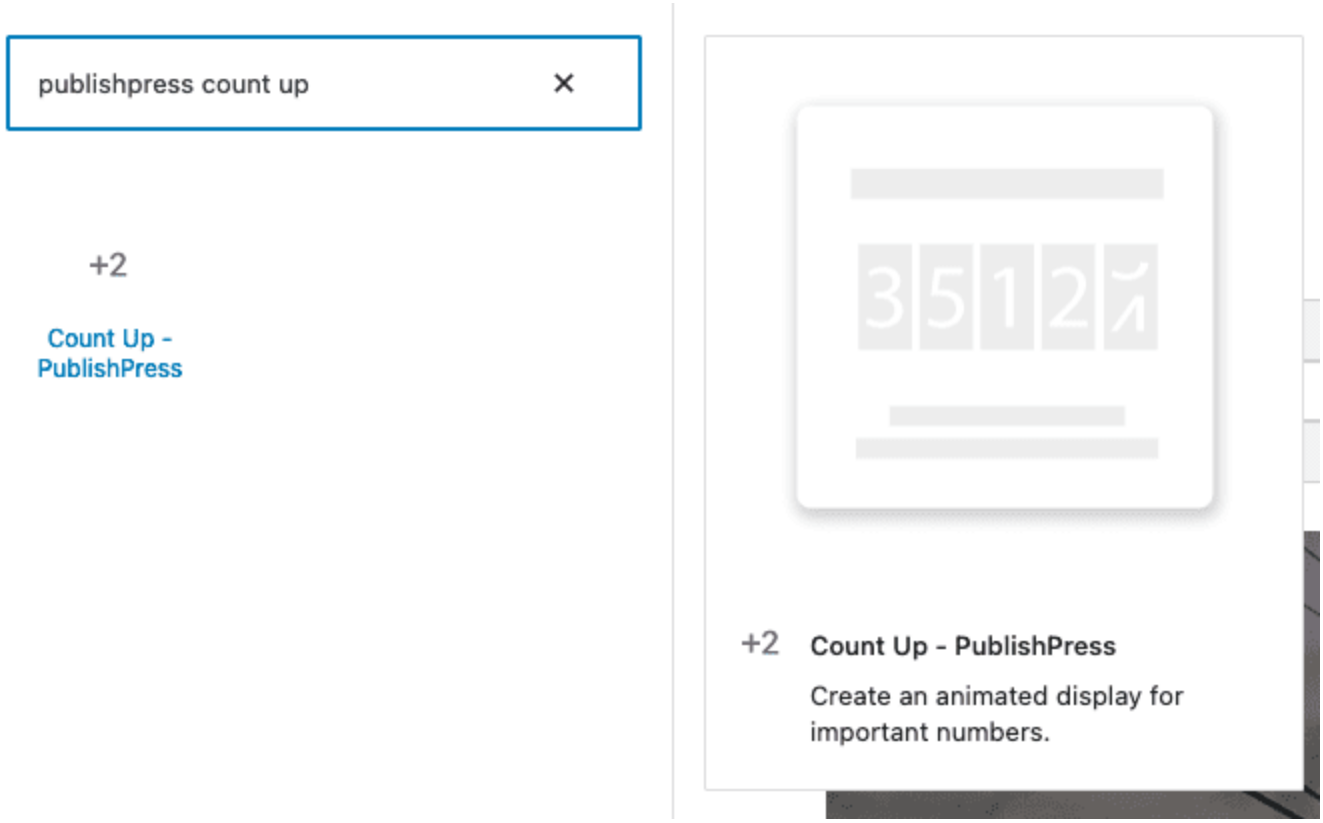

PublishPress Blocks · https://publishpress.com/knowledge-base/count-up-block/

The Count Up block is available in the PublishPress Blocks plugin. This is perfect for showcasing numbers in Gutenberg. You can use it show how many clients you have, how much money you have raised, how many cups of coffee you've served, or anything else.

How to create the PublishPress Count Up block

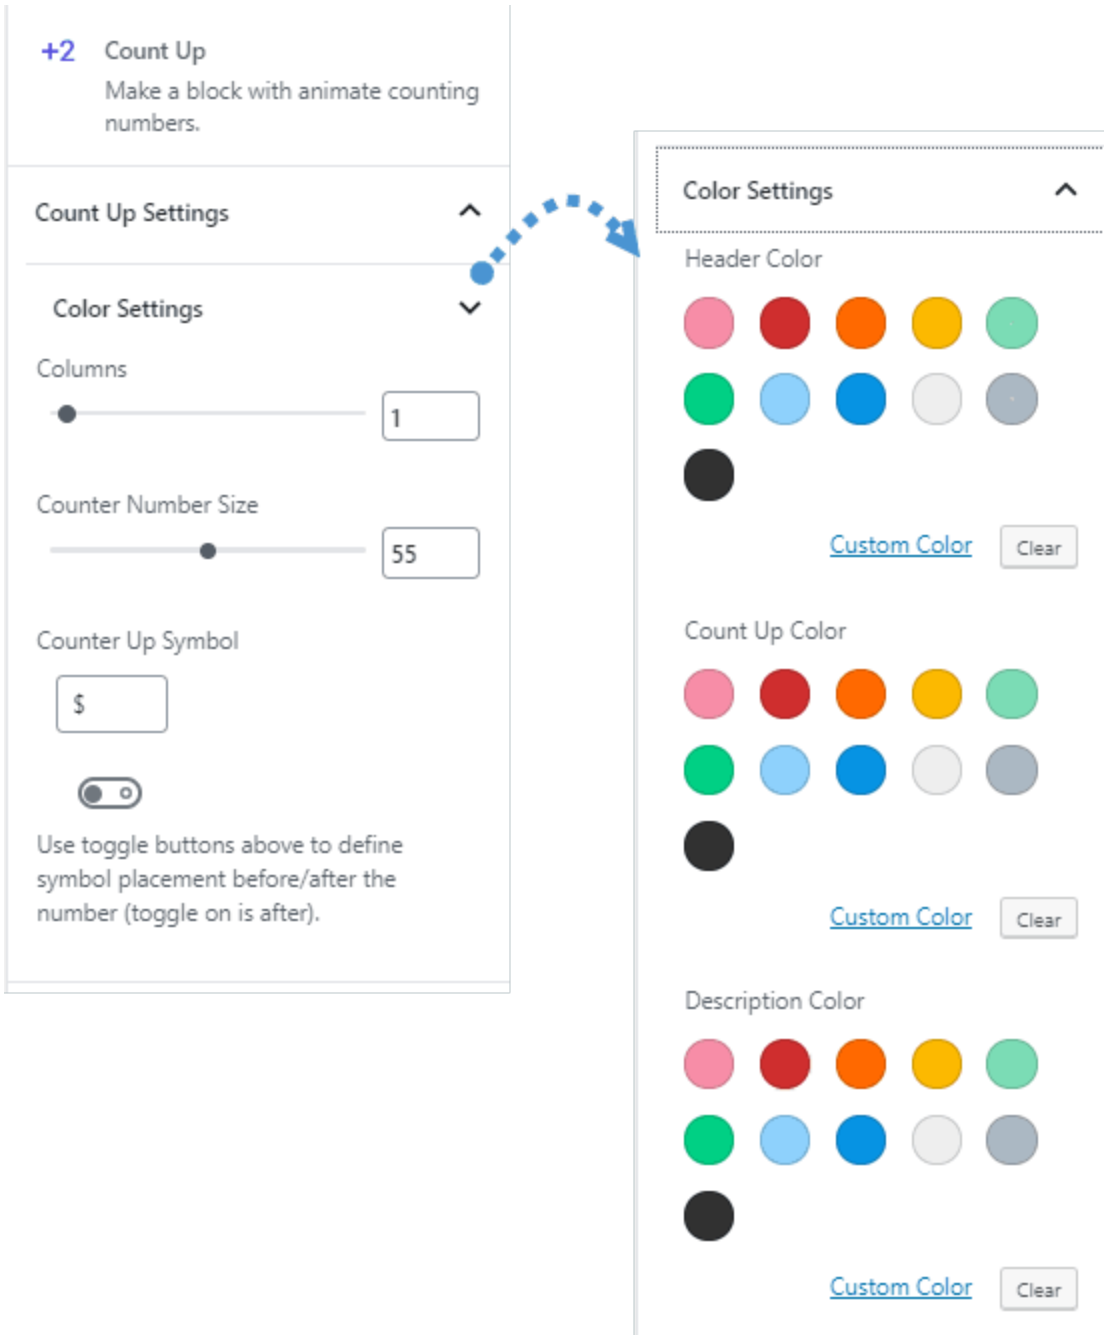

You can create a Count Up block by clicking "Count Up - PublishPress" button in the PublishPress Blocks category:

Settings in the PublishPress Count Up block

In the right sidebar, you can adjust some options for the Counter:

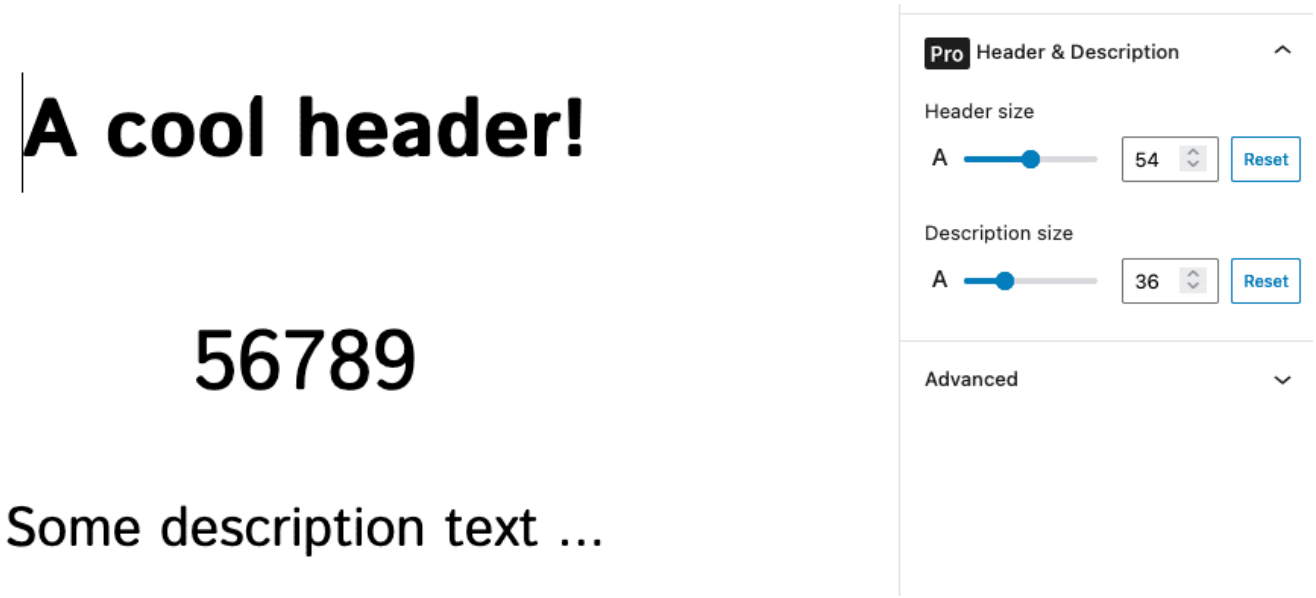

- **Color Settings:**
  - Headers color
  - Count Up color
  - Description's color
- **Columns:** 1-3
- **Counter Number Size:** Set the numbers' size
- **Counter Up Symbol:** add a character before or after the counter
- **Toggle button:** Set the position of the symbol. If this is enabled, the symbol will appear below the number.

Change header and description size (Pro)

This feature requires the Pro version of the PublishPress Blocks plugin.

This feature is available in the Pro version of PublishPress Blocks. You can change the size for the header and description.

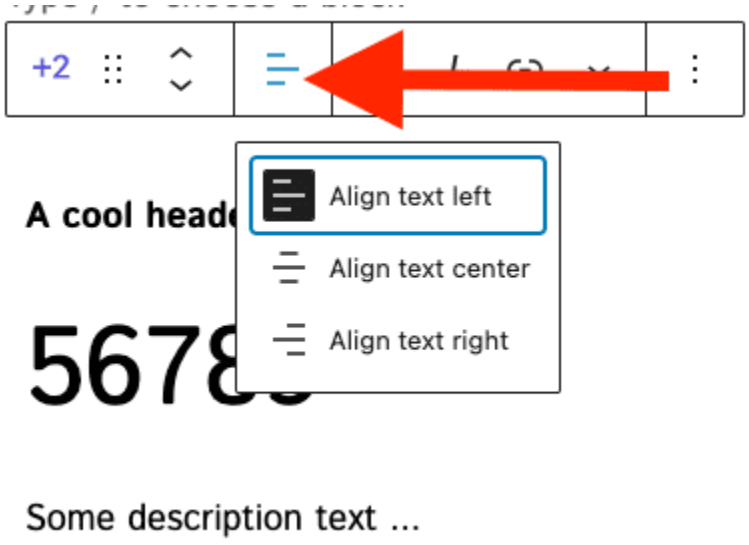

1. Go to Header & Description panel
2. Set a custom font size for the header and description

Change text alignment (Pro)

This feature requires the Pro version of the PublishPress Blocks plugin.

This feature is available in the Pro version of PublishPress Blocks. You can change the text alignment through the toolbar align feature.
