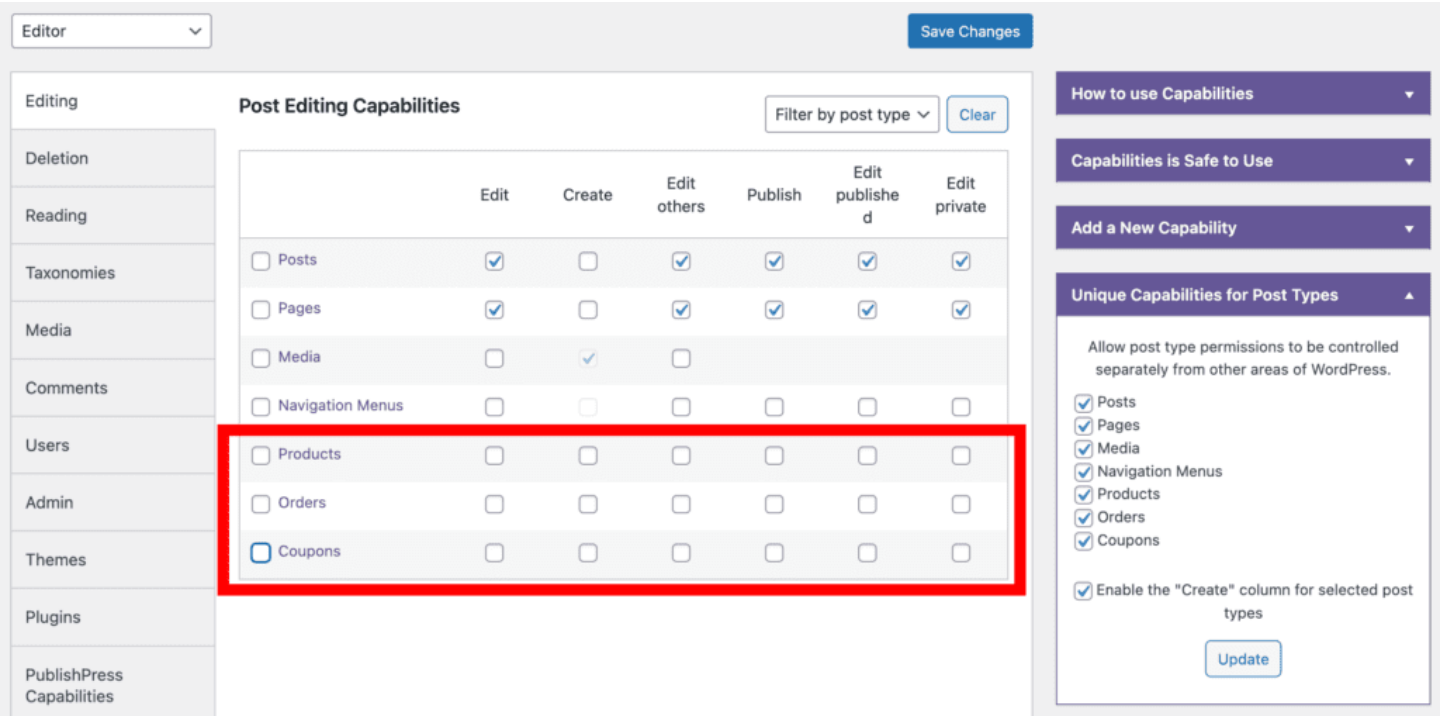
Control Permissions in WooCommerce

Integrations · https://publishpress.com/knowledge-base/woocommerce-permissons/

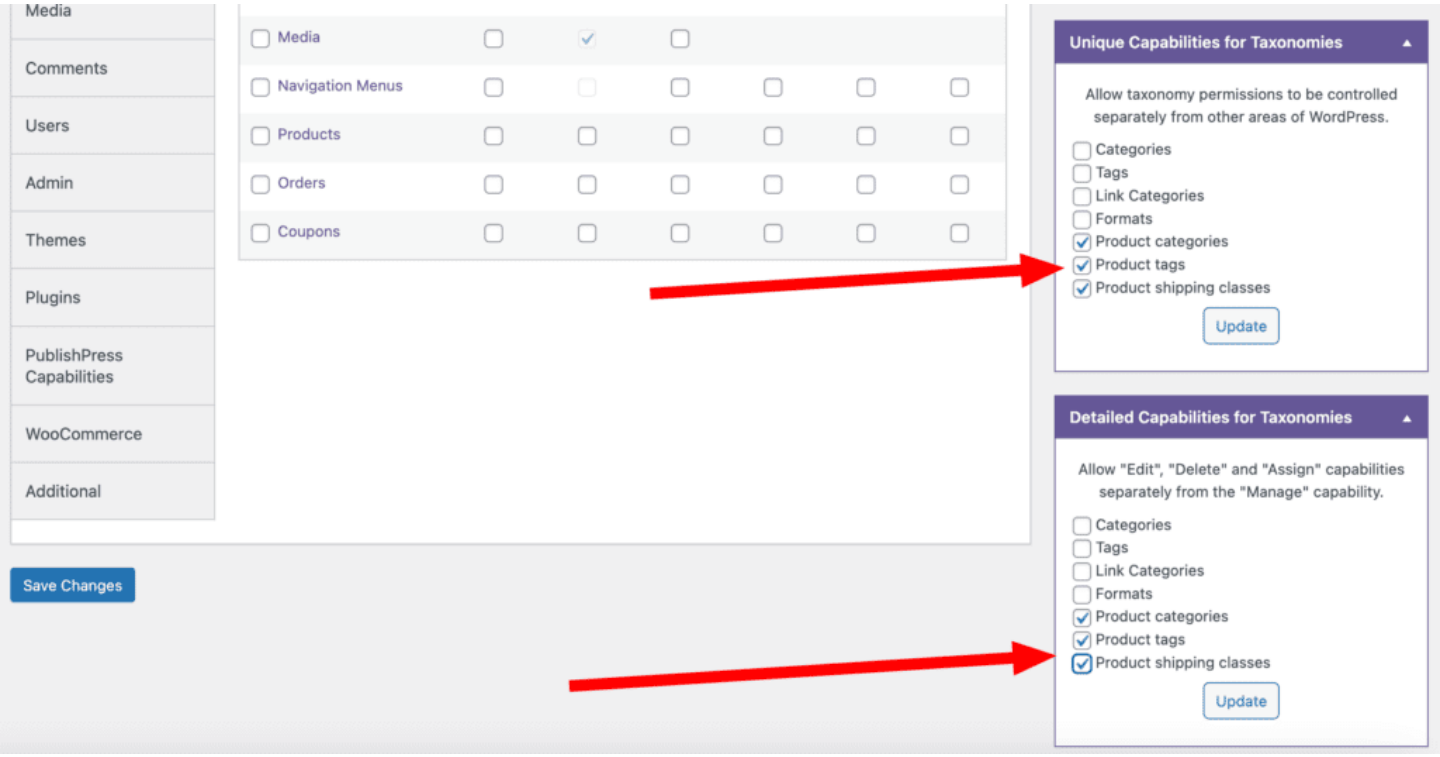
The PublishPress Capabilities plugin enables you to control permissions for the WooCommerce plugin.

- Go to the "Capabilities" link in your WordPress admin menu.
- In the main area of your screen will see options for WooCommerce Products, Orders and Coupons. These permissions cover editing, deleting and reading.



In the right sidebar, you can also enable permissions for WooCommerce taxonomies.

- Check these boxes for Product categories, Product tags, and Product shipping classes:



After you check those boxes and refresh your screen, you will see Manager, Edit, Assign and Delete options for Product categories, Product tags, and Product shipping classes:
