Hide the “not assigned” Button in Shuffle Box

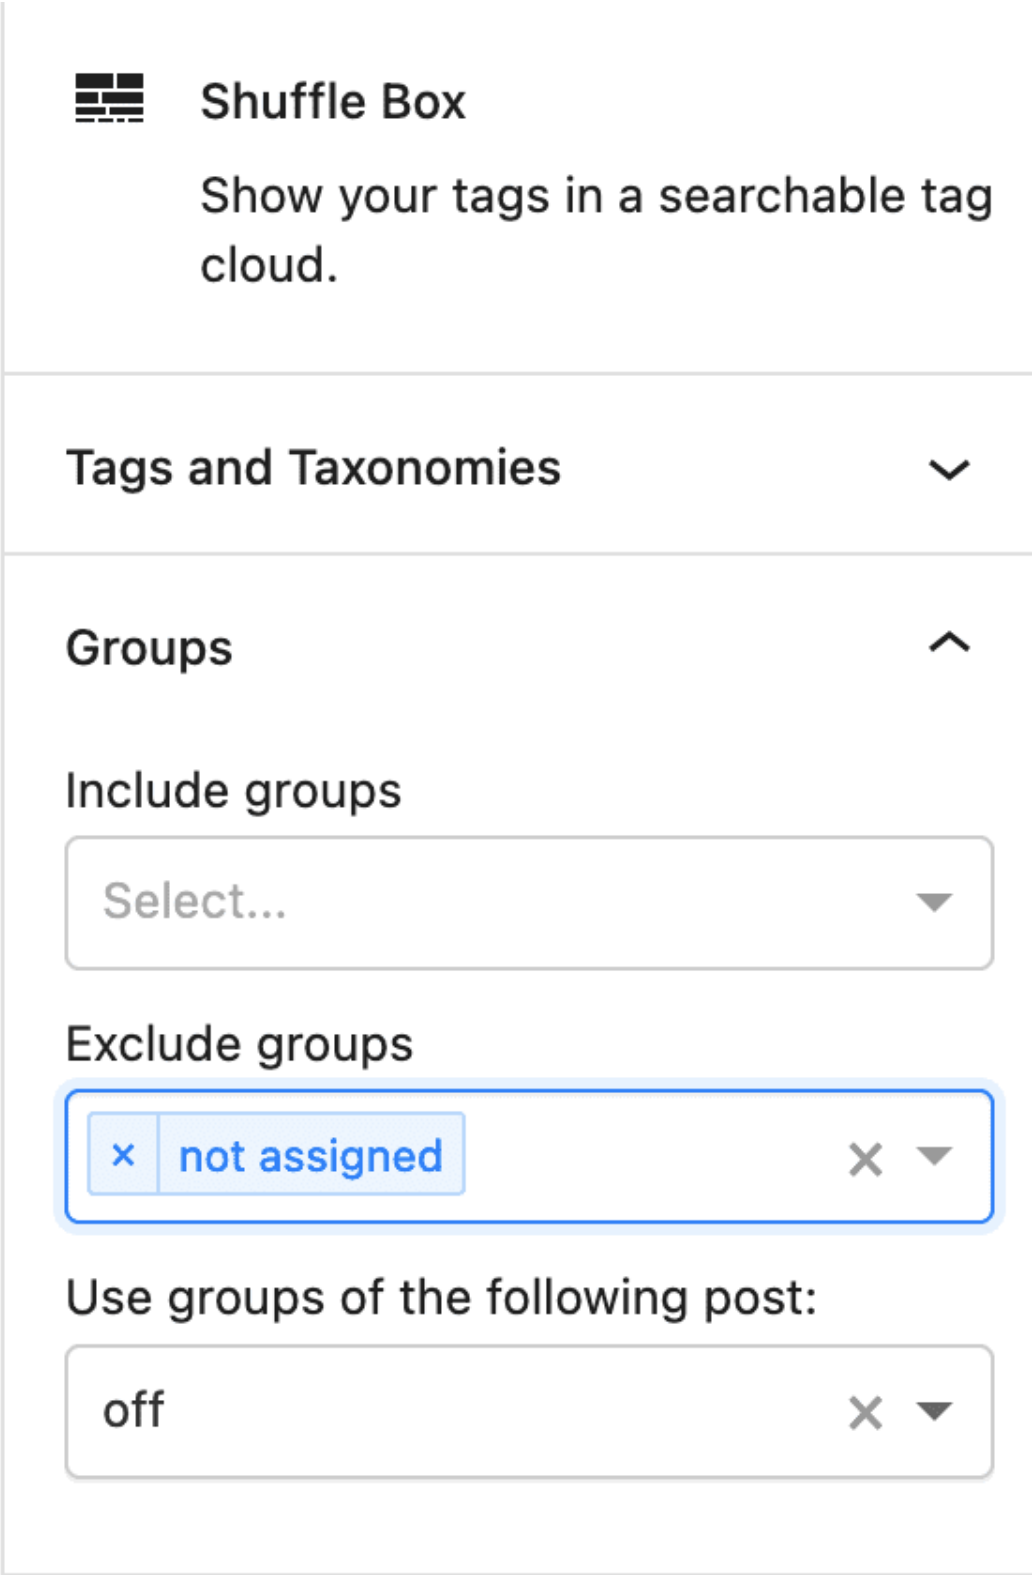

Shuffle Box (Pro) · https://publishpress.com/knowledge-base/how-do-i-hide-the-not-assigned-button-in-the-shuffle-box/

You may sometimes see a "not assigned" tab when creating a Shuffle Box layout. You can see that tab in the screenshot below. The "not assigned" group is the default group for all tags and it has the ID 0 (zero).

Hide the button in the Gutenberg block

- Inside the Gutenberg block settings, find the "Groups" area.
- In the "Exclude groups" box, enter "not assigned".

Hide the button in the shortcode

- Add this parameter to the shortcode `exclude=0`.

- If you need to exclude more groups, you join the IDs into a comma-seperated list: `exclude=0,1,4`.
