Tabbed Tag Cloud – Overview

Tabbed Tag Cloud · https://publishpress.com/knowledge-base/tabbed-tag-cloud/

The Tabbed Tag Cloud allows you to display a tag cloud with your groups as tabs. You can use the Gutenberg block or a shortcode

Here's a screenshot of the Tabbed Tag Cloud feature from our demo site. This example uses the "append" and "prepend" options to add style to the terms. We're using a Unicode icon of a photo, plus the "slategray" theme.
