# Create Checklists for WooCommerce Products

WooCommerce · https://publishpress.com/knowledge-base/woocommerce-checklist-publishpress/

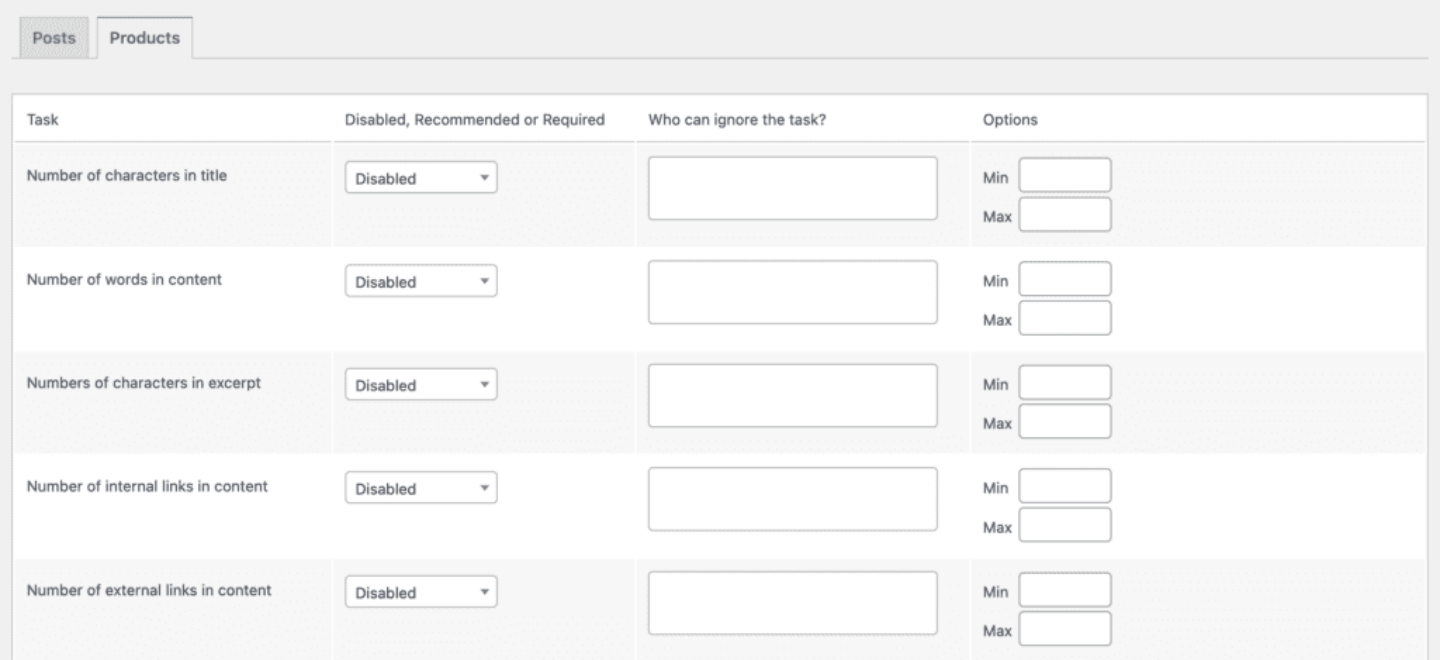

One of the features of PublishPress Checklists Pro is support for WooCommerce products.

Here's how to add pre-publishing checklists for WooCommerce products.

- Install the Pro version of PublishPress Checklists.
- Go to Checklists > Settings in the WordPress admin menu.
- PublishPress Checklists does not appear on WooCommerce by default. You need to select the "Products" post type for use with the Checklist:

- Go to Checklists in the WordPress admin menu.
- Click the "Products" tab.

In the center column, you can choose a specific action for each requirement:

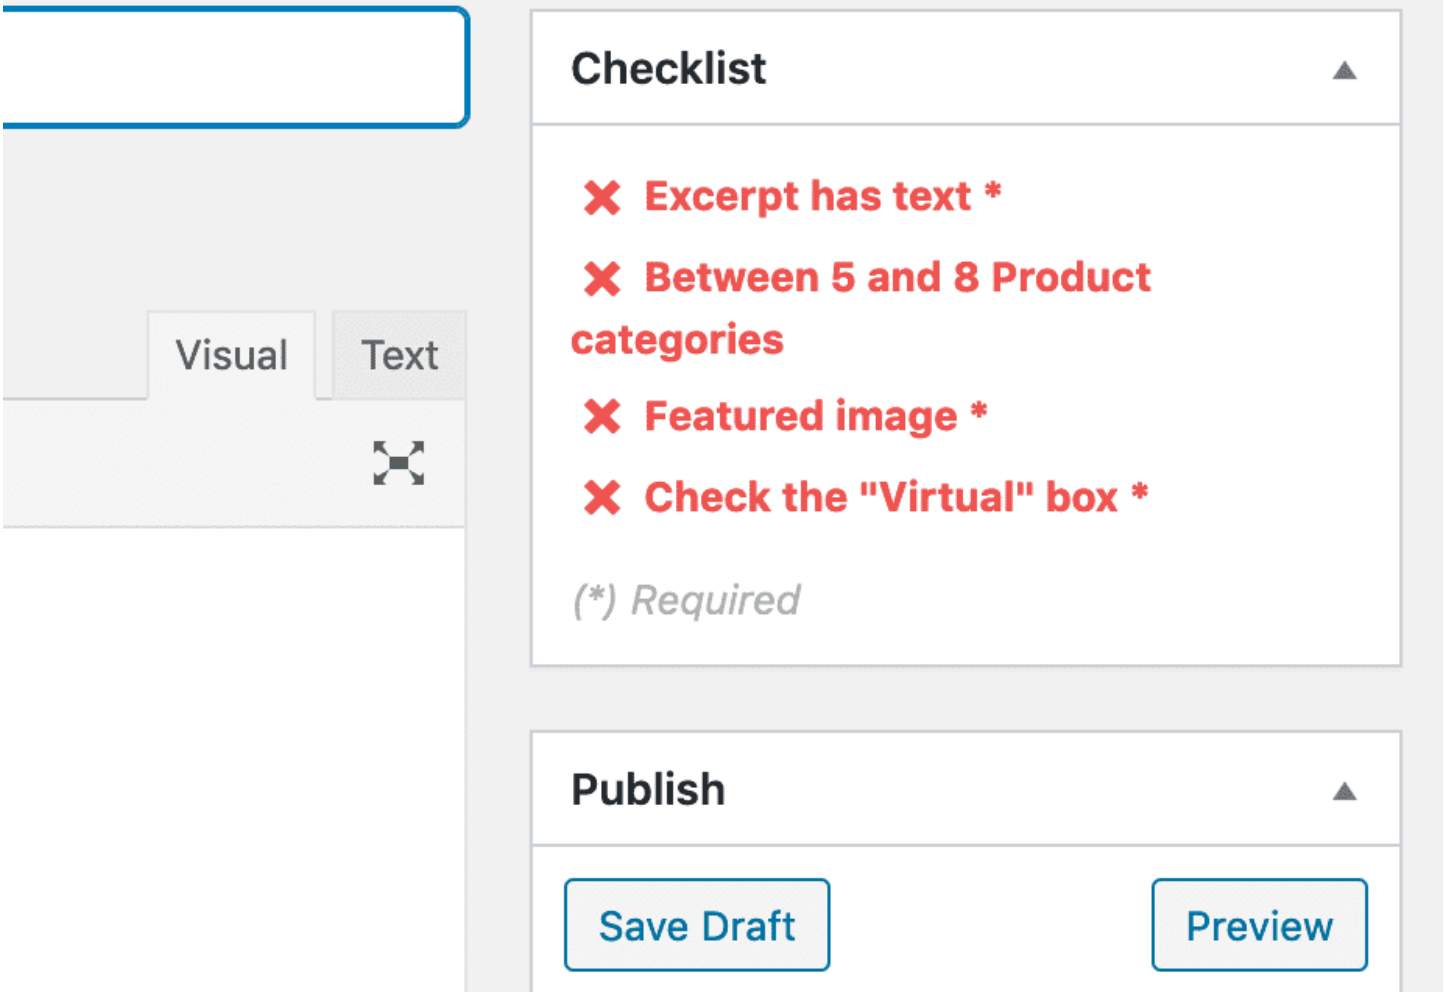

- Disabled
- Recommended: show only in the sidebar
- Recommended: show in the sidebar and before publishing
- Required

All the requirements are disabled by default. You can select only the requirements you need. There are many requirements you can choose:

- Number of characters in the title
- Number of words in Excerpt
- Number of internal link in content
- Number of external link in content
- All links use valid format
- Alt text for images
- Latin character in permalink
- Approved by a user in this role
- Featured image height
- Number of Product categories

- Number of Product tags
- Number of words
- Number of Gift cart categories
- Featured image width
- Check the "Virtual" box
- Check the "Downloadable" box
- Enter a "Regular price"
- Enter a "Sale price"
- Schedule the "Sale price"
- Discount for the "Sale price"
- Enter a "SKU"
- Check the "Manage stock?" box
- Check the "Sold individually" box
- Check the "Allow backorders?" box
- Select some products for "Upsells"
- Select some products for "Cross-sells"
- Product image

When you go to create a WooCommerce product, you will now see the checklist in the right sidebar:
