- can be Editability Circles

|  |  |                        |
|--|--|------------------------|
|  |  |                        |
|  |  |                        |
|  |  | Compat                 |
|  |  | Compat                 |
|  |  | (can develop for hire) |
|  |  | Membership             |
|  |  | Membership***          |
|  |  | (can develop for hire) |
|  |  | Circles                |
|  |  | Circles                |

### Direct file access filtering

- option to make unattached uploads private
- option to leave small thumbnails unfiltered
- Multisite: assisted maintenance of .htaccess for ms-files redirect

|  |  |             |
|--|--|-------------|
|  |  | File Access |
|  |  | File Access |
|  |  | File Access |
|  |  | File Access |

### Hidden Content Teaser

- option to hide private posts
- option to hide posts w/ custom privacy
- different message for each post type

|  |  |                        |
|--|--|------------------------|
|  |  | Teaser                 |
|  |  | Teaser                 |
|  |  | Teaser, Status Control |
|  |  | Teaser ****            |

### Unified UI to specify “this user/group can/cannot access this”

|  |  |  |
|--|--|--|
|  |  |  |
|--|--|--|

### Ajax UI to manage permissions:

- on post edit form
- on group edit form
- for user (link from user profile, listing)
- search / select UI for post author selection

|  |  |  |
|--|--|--|
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |

### Custom permissions columns:

- Posts listing
- Users listing
- Groups listing

|  |  |  |
|--|--|--|
|  |  |  |
|  |  |  |
|  |  |  |

### Bulk Creation of User Pages

|  |        |        |
|--|--------|--------|
|  | Collab | Collab |
|--|--------|--------|

### Customize bbPress Permissions

- Read access for specific forum(s)
- Participant access for specific forum(s)
- Reply access (only) for specific forum(s)
- Moderation access for specific forum(s)
- Hidden Topic / Reply teaser

|  |  |        |
|--|--|--------|
|  |  | Compat |
|  |  | Compat |
|  |  | Compat |
|  |  | Compat |
|  |  | Compat |
|  |  | Compat |

### Other Plugin Integration

- Revisionary
- PublishPress Custom Statuses
- CMS Page Tree View
- Custom Post Type UI
- Public Post Preview
- Relevanssi

|  |        |                        |
|--|--------|------------------------|
|  | Collab | Collab                 |
|  |        | Collab, Status Control |
|  |        | Compat                 |
|  |        | Compat                 |
|  |        | Compat                 |
|  |        | Compat                 |

### WMPL Integration

- mirror post / category permissions to translations
- assign language roles (to edit all posts in specified language)

|  |  |                          |
|--|--|--------------------------|
|  |  | Compat                   |
|  |  | (maybe develop for hire) |

### NextGen Gallery Roles

|  |  |                          |
|--|--|--------------------------|
|  |  | (maybe develop for hire) |
|--|--|--------------------------|

### Various other plugin compatibility workarounds

|  |  |        |
|--|--|--------|
|  |  | Compat |
|--|--|--------|

**Future plugin compatibility workarounds**

|  |  |               |
|--|--|---------------|
|  |  | <b>Compat</b> |
|  |  |               |

**Import Scripts**

- from Role Scoper

|  |               |               |
|--|---------------|---------------|
|  | <b>Import</b> | <b>Import</b> |
|--|---------------|---------------|

**notes**

\*\*\* = via group membership date limits, not imported

\*\*\*\* = requires custom code in functions.php (sample provided)

**PublishPress Permissions Module Key**

|                       |                                 |
|-----------------------|---------------------------------|
| <b>Circles</b>        | Circles module                  |
| <b>Collab</b>         | Collaborative Publishing module |
| <b>File Access</b>    | File Access module              |
| <b>Import</b>         | Import module                   |
| <b>Membership</b>     | Membership module               |
| <b>Compat</b>         | Compatibility module            |
| <b>Status Control</b> | Status Control module           |
| <b>Teaser</b>         | Teaser module                   |
